## *Founding partners*

WORLD CLIMATE LTD develops and facilitates large-scale collaborations and transactions between businesses, governments, investors, and philanthropists for local, national and global solutions in the areas of climate change, resource efficiency, and sustainability. We provide a bridge between the private and public sectors to transform vision into reality for businesses, institutions, governments, and philanthropists.

The Northeast Clean Energy Council (NECEC) is the premier voice of businesses building a world-class clean energy hub in the US Northeast since 2006. NECEC helps clean energy companies start, scale and succeed with our unique business, innovation and policy leadership. NECEC convenes, connects and accelerates clean economy progress in the Northeast ecosystem and to networks across clean economy hubs.

The Massachusetts Clean Energy Center (MassCEC) is a publicly-funded agency dedicated to accelerating the success of clean energy technologies, companies and projects in the Commonwealth since 2009 — while creating high-quality jobs and long-term economic growth for the people of Massachusetts.
